Group Questions

- Have you noticed or been apart of someone dealing with sexual assault or trauma on your campus or in ministry?
- Do you know where the Title IX office is or who the officers are? What Campus Groups may be related to this cause? (hint, they are not Christian, we need a Christian Response).
- How do we help young adults understand, appreciate but not be lead by desires?
- How do we connect with the broader campus on restoration? Or redemption?
- What is ONE THING you could do this semester to address these ideas?
